

Potassium chloride

produced in Turkmenistan

Terms:

- **Product:** Potassium chloride
- **Price:** will be calculated as you specify for us final destination
- **Quantity:** up to 3000 tons/monthly
- **Packing:** big bags
- **Country of Origin:** Turkmenistan
- **HS code** (ТН ВЭД): 3104209000
- **Delivery and Payment terms:** according to mutual agreement
- **Technical specification:** please see next page.

KCl

Technical specification:

SPECIFICATIONS

№	Name of a parameter	Mark rate	
		Small	
		1st grade	2nd grade
1	Appearance	Small crystals of greyish-white color or small grains of various shades of red-brown color	
2	Mass fraction of potassium in terms of K ₂ O,%, not less	60	
3	Mass fraction of water,%, not more	1	
4	Granulometric composition (mass fraction of fractions),%: 6 mm from 1 to 4 mm, not less less than 1 mm, not more	Not formed Also Also	
5	Dynamic strength (mass fraction of intact granules),%, not less	Not standardized	
6	Friability,%	100	

Product quality meets the requirements of GOST 4568-95
